

# FAMILY PLANNING & REPRODUCTIVE HEALTH

MSH mobilizes communities at all levels of a health system to increase access to family planning and reproductive health services.

- **TANZANIA, UGANDA, AND LIBERIA**

MSH supports more than **9,900** *retail drug sellers* improve access to quality contraceptives, medicines, and first-line health care in underserved areas.

USAID-funded, MSH-led projects include:

- **MADAGASCAR**

Through the Mikolo project, nearly **3,000** *community health volunteers* provide timely family planning counseling, early referrals to antenatal care, and help to scale up free pregnancy tests.

- **BANGLADESH**

The Systems for Improved Access to Pharmaceuticals and Services (SIAPS) program contributed to a **85 percent** *reduction* in stock outs of family planning commodities.
